To Whom It May Concern:

Advanced Charger Technology, Inc. (*ACT*) is the sole manufacturer of the iCHARGE line of two-way radio battery chargers. The product line includes:

| <u>Product</u> | <u>Model #</u> |
|---|----------------|
| iCHARGE Single Bay | i10 |
| iCHARGE VC Single Bay vehicular charger | i15 |
| iCHARGE 6 Six Bay | i60 |
| iCHARGE 6 Maintainer | i65 |
| iCHARGE 612 Twelve Bay | z612 |
| i6P Six Bay Drop-In Charger | i6P |
| iGAUGE Analyzer | iCG |

These products incorporate *ACT*'s proprietary, patented charging system, Dynamic Electrochemical Waveform (DEW™) technology. DEW is covered under United States Patents #4,829,225; 5,307,000; 5,504,415; and 5,694,023, with additional patents pending.

The technology used in these chargers is unique and proprietary. There are no other battery chargers incorporating DEW or any similar type of technology. Products based on DEW technology are available only from ACT or from an authorized ACT Dealer/Distributor.

Sincerely

Bob Wylie
